

Baja SAE Technical Bulletin

2017-4: Reminders for Engine Check

Introduction

- This bulletin will cover reminders from Briggs & Stratton related to preparing for Engine Check
- If you are unsure about a rule, you can make use of the Rules Question feature on BajaSAE.net, or ask fellow competitors on the BajaSAE.net forums.

Reminders for Engine Check

- Absolutely nothing on the crankshaft. This includes all washers, spacers, and keys.
- Remove the black cover over the governing system. The cover needs to be completely removed.
- Ensure you have the correct roll over fuel cap as part of the SAE kit you received.
- Ensure all fuel line connections have appropriate clamps and the fuel line cannot touch any hot components on the engine including the muffler or muffler guard.
