

SAE University Programs

PreK-8

Support the implementation of A World In Motion®, SAE's PreK-8 STEM program, in a local classroom.

High School

Mentor a high school classroom by sharing insights and knowledge from your SAE experience.

Give Back with SAE's LearnTwice™

SAE International's LearnTwice near-peer mentoring program provides a visible pathway for young learners to envision themselves as future engineers while also providing networking and leadership opportunities for university students. LearnTwice is open to all active teams participating in any of SAE's University Programs.

Benefits for You

- Strengthen leadership skills to apply in future careers
- Reinforce learning through teaching
- Cultivate connections through local networking
- Earn compensation for participation in SAE University Programs

Benefits for Others

- Create impactful STEM experiences for young learners
- Raise awareness about different career pathways
- Augment curriculum with real-world applications
- Access to resources that support equitable education

**Participating in LearnTwice is easy
and SAE will support you along the way!**
